The following is part of H.Q.'s letter D.22 of 8th January, and I should be grateful to have your comments on it.

"Creep 30.

"Your recent telegrams do not refer to this consignment by this number, but the descriptions appear to fit in with the type of packing in which these stores were sent, i.e. "round and square tins", which contain Primers, Detonators and Cordtex.

"We note you have received a large quantity of Creep 32, comprising Plastic H.E., and are wondering if you have classed both consignments under the one Creep number of Creep 32. Would you please let us know the position regarding these two consignments as soon as possible.

"Creep 31.

"These stores, comprising Motor and Bicycle tyres, were reported at sea on 28th November last, and we should be glad to know if they have yet reached the Field."
